## FINAL WEBINAR IN THIS SERIES

- 'Obstacles En Route' (module 5) and 'The Diabetic Review' (module 6) – 16th June 2022

## SPEAKER

**Dr Amar Puttanna** is a Diabetes and Endocrine Consultant in the West Midlands. He is particularly interested in education, having won teaching awards from the University of Birmingham and the Royal College of Physicians of Edinburgh and currently sits on the MRCP Part 1 examining board. .../contd.

Astra Zeneca have supported the set up and organisation of this meeting via sponsorship. They have had no input into the content of the speaker session.

He has been involved in writing guidelines with the Joint British Diabetes Societies (JBDS) and guidelines/patient leaflets for TREND-UK on diabetes and dementia. He was previously part of the Birmingham and Solihull CCG medicines management group and has worked on local guidelines for type 2 diabetes.

He sits on the editorial board for the British Journal of Cardiology and previously Diabetic Medicine Journal. He has been an invited speaker to national and international conferences and has worked with the European Association for the Study of Diabetes (EASD) and also the BMJ on their respective diabetes e-learning platforms. He is part of GoggleDocs, a medical education initiative focussing on cardio-reno-metabolic disease and is a former member and chair of the Young Diabetologists and Endocrinologists Forum (YDEF) and one of the first Royal College of Physicians Chief Registrars.

Dr Puttanna's interests are in cardiovascular disease, diabetes management in older adults and translating research into clinical practice and is active on social media (@AmarPut). His work in cognitive impairment (DIADEM project) has won a Quality in Care award.

As of 2022, he has taken up a new role as National Medical Advisor for Clinical Engagement for Sanofi UK in addition to clinical work.
