KEY LEARNING POINTS

What is 'red face'? Who is at risk? What factors affect its management and what are the management options available to you? Covers the treatment of: acne, rosacea, seborrheic dermatitis, peri-oral / peri-ocular / per-orifacial dermatitis.

SPEAKER - DR STEPHANIE GALLARD

Dr Stephanie Gallard (B.Pharm, MBChB, PG Dip Derm [Cardiff Uni.]) qualified as a pharmacist in 1991, a doctor in 1996 and a GP in 2003. After several years as a salaried GP she moved into medical management in 2008.

She has worked in the Liverpool Dermatology Integrated Clinical Assessment and Treatment Service since its inception in 2007 as a GPSI for the Royal Liverpool & Broadgreen University Hospital Trust. Dr Gallard is an enthusiastic educator on dermatology in primary care to all clinicians, and lectures extensively for various organisations, including the RCGP and PCDS (Primary Care Dermatology Society).
